

A group of five diverse children are lying on a grey carpet, focused on coloring a large world map spread out before them. They are using various colored markers and crayons. The map shows continents in outline, with some areas already colored in pink, yellow, and green. The children are dressed in casual clothing like t-shirts and jeans. The scene is brightly lit, suggesting an indoor setting with large windows.

Connecticut's Focused Monitoring System

**Connecticut State Department of Education
Bureau of Special Education
*September 14, 2004***

Why Focused Monitoring (12)

- Need to focus more on **results** for students and less on procedures;
- Need to **prioritize** our resources and efforts;
- Need to **connect** special education monitoring and improvement activities to general education initiatives;

Why Focused Monitoring?

- Need to **include** consumers (parents) in monitoring;
- Need to **respond** to changes in OSEP's monitoring system; and
- Need to **have** a more effective monitoring system.

Focused Monitoring Steering Committee included:

- **ConnCASE representatives;**
- **SDE consultants and bureau chief;**
- **SERC consultants and director;**
- **Birth to Three System and early childhood representatives;**
- **Parents and advocacy organizations; and**
- **Additional invitees for discussion of priority areas.**

ConnCASE Representatives

- James Blair
- Mary Forde
- Clint Montgomery
- Joseph Onofrio
- Joanne Panicek
- Mariann Rossi-Ondusky
- David Scata
- Palma Vacarro
- Gary Zaremski

Parent Representatives

- CPAC – Nancy Prescott
- CPAC – Jane Hampton Smith
- SAC – Isabel Kaplan
- Parent Advisors - Shelton Public Schools:
Patricia Mc Cormack, Roberta Salemmme,
Jane Dowty
- CCIE – Ginger Spiers

Development of the System (3)

- OSEP Guidance – National Conference and Annual Performance Report (APR)

Development of the System (3)

- OSEP Guidance – National Conference and Annual Performance Report (APR)
- Technical Assistance from National Center for Special Education Accountability Monitoring (NCSEAM)

Development of the System (3)

- OSEP Guidance – National Conference and Annual Performance Report (APR)
- Technical Assistance from National Center for Special Education Accountability Monitoring (NCSEAM)
- Technical Assistance from the Northeast Regional Resource Center (NERRC)

- Focused monitoring will be the design.
- Parents will be an integral part of the system.
- The system must be responsive to OSEP and State priorities.
- Data will be disseminated to the public.

System of General Supervision (7)

- Special Education Profiles
- IDEA Entitlement Grant
- SDE Policy and Procedures Manual
- Training and Technical Assistance
- IEP form
- Publications and Guidelines
- Complaints/Due Process Hearings/Mediations
- PJ Settlement Agreement

Program Review, PJ and Focused Monitoring

- 6 year program review cycle ended in 2002-2003 in the ACES region.
- 2002-2003 settlement agreement monitoring was embedded in the ACES review, in addition to focused monitoring in non-ACES districts.
- 2003-2004 Steering Committee developed focused monitoring system, settlement agreement monitoring continues.

Program Review, PJ and Focused Monitoring

- 2004-2005 focused monitoring system replaces cyclical program review; and
- 2004-2005 settlement agreement monitoring continues for identified districts and as part of focused monitoring.

Identification of Key Performance Indicators (15)

- Feedback from OSEP
- State data ranked by OSEP – Appendix D
- CT priorities such as settlement agreement, data review, past program review findings

Focused Monitoring Cycle (14)

- Steering Committee identifies key performance indicators.
- Districts are rank ordered based on data.
- Districts in need of improvement identified.
- Districts required to analyze their data.
- Districts chosen for site visit based on data and their analysis.

Rank Ordering (18)

Rank ordering is done by population groups – total number of students that the district is fiscally responsible for:

< 1,000

1,000 - 2,500

2,500 - 5,000

5,000 - 23,000 *students*

Two Key Performance Indicators for 2004-2005 (15)

1) **Overrepresentation:**

Monitor any overrepresentation of students with disabilities, in specific disability categories, for all racial and ethnic groups, in comparison to the district's total student population.

Key Performance Indicators

2) LRE:

Decrease the number of students in all disability categories who spend time in segregated settings as defined by 0-40 percent of their day with nondisabled peers.

Data Probes: Overrepresentation

- 1) District high outliers, by disability and race/ethnicity, for youth 3-21 in following disability categories: LD, ID, ED, Sp/L, OHI and Other;

Data Probes: Overrepresentation

- 1) District high outliers, by disability and race/ethnicity, for youth 3-21 in following disability categories: LD, ID, ED, Sp/L, OHI and Other;
- 2) District disability odds ratios by race ethnicity for same disability categories; and

Data Probes: Overrepresentation

- 1) District high outliers, by disability and race/ethnicity, for youth 3-21 in following disability categories: LD, ID, ED, Sp/L, OHI and Other;
- 2) District disability odds ratios by race ethnicity for same disability categories; and
- 3) Difference between district wide graduation rate for all students in comparison to grad rate for students with disabilities.

Data Probes: LRE (16)

- 1) District percent of all students with disabilities who spend 0-40 % of their twndp;
- 2) District mean time with nondisabled peers for students with disabilities educated in district; and
- 3) District mean time with nondisabled peers for preschoolers with disabilities, except those receiving itinerant services.

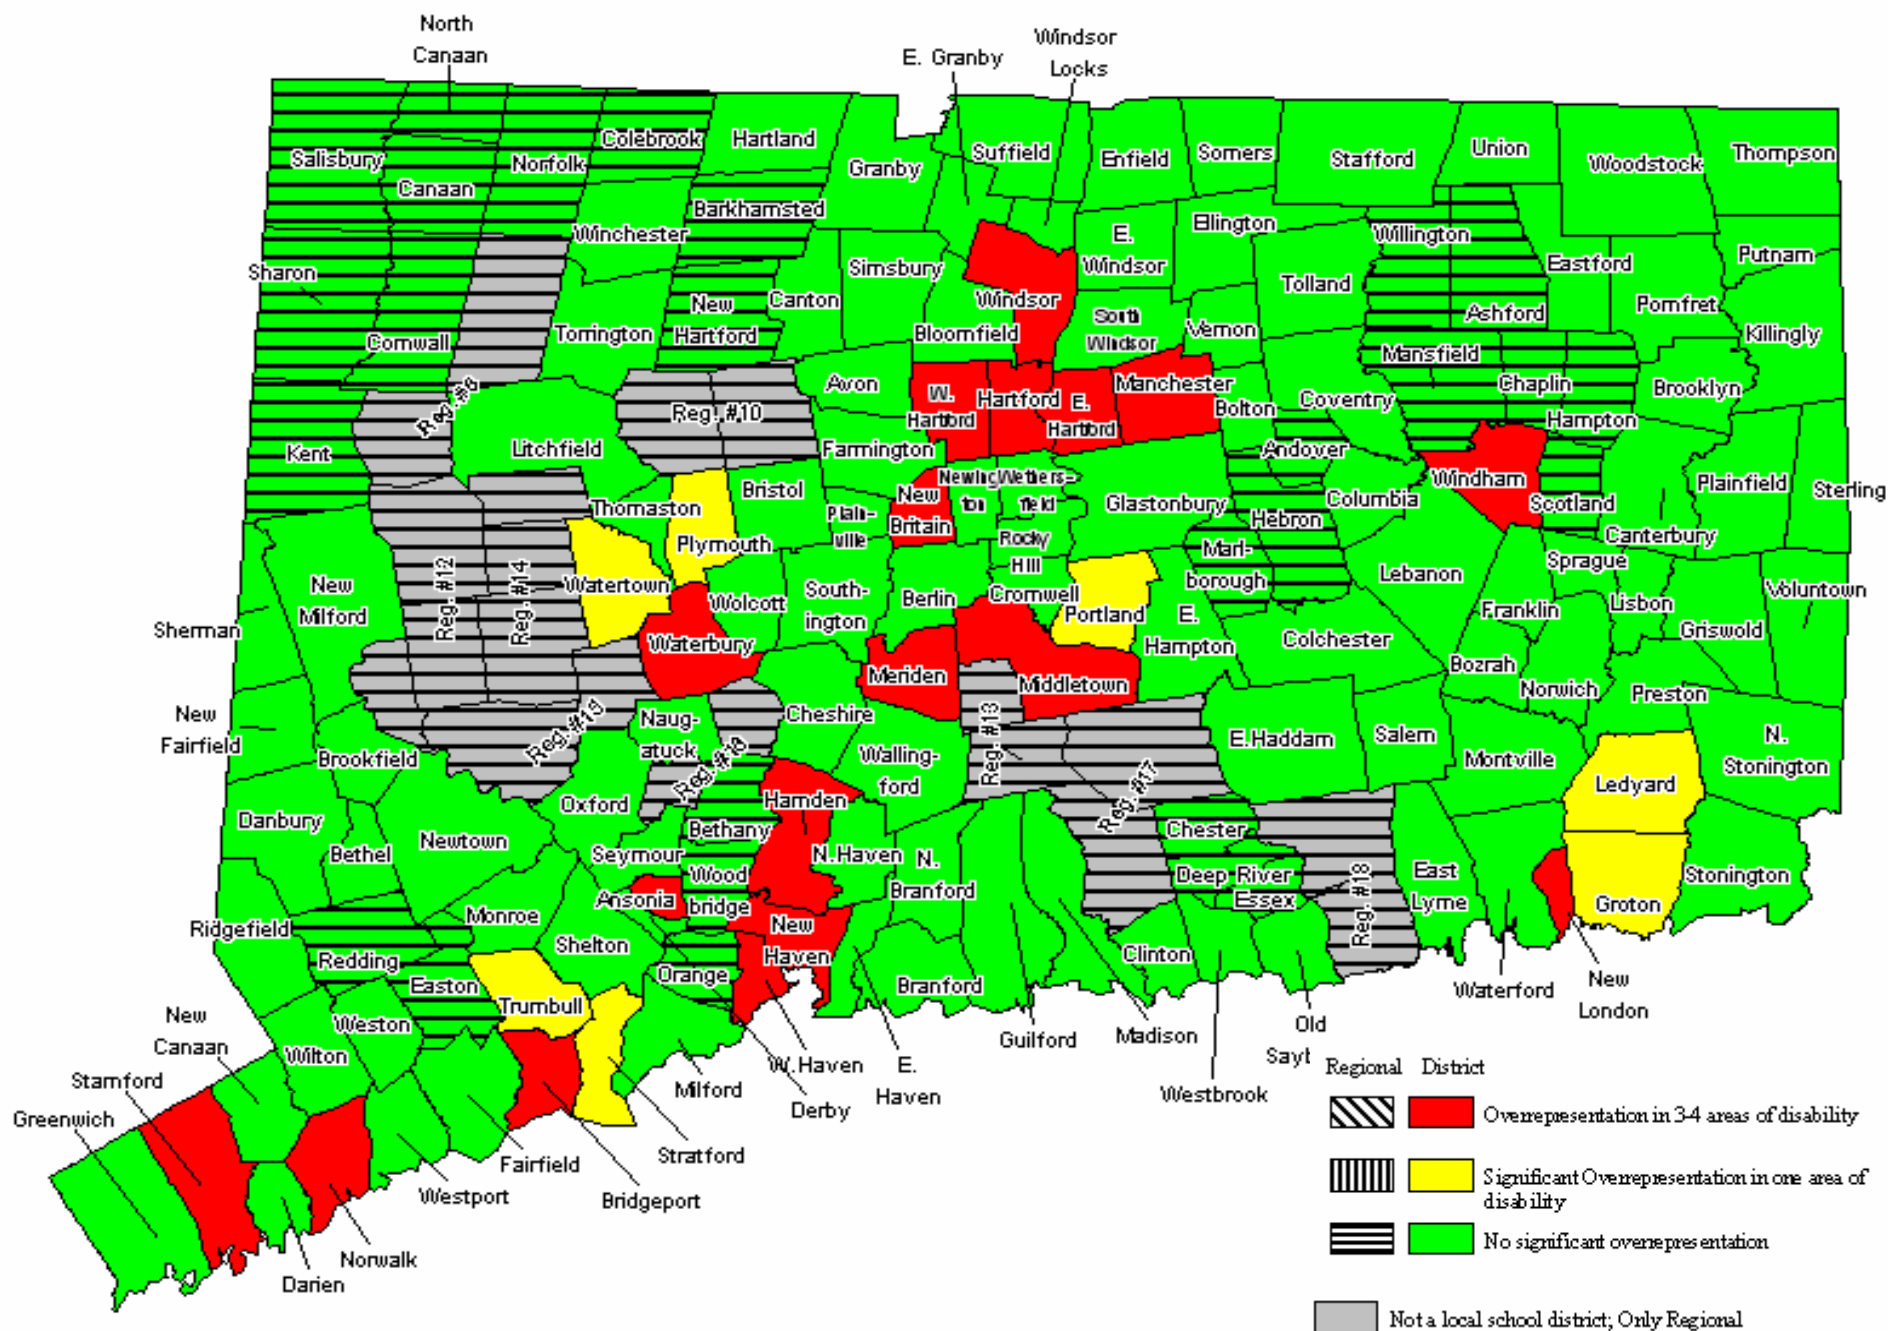

Data Maps

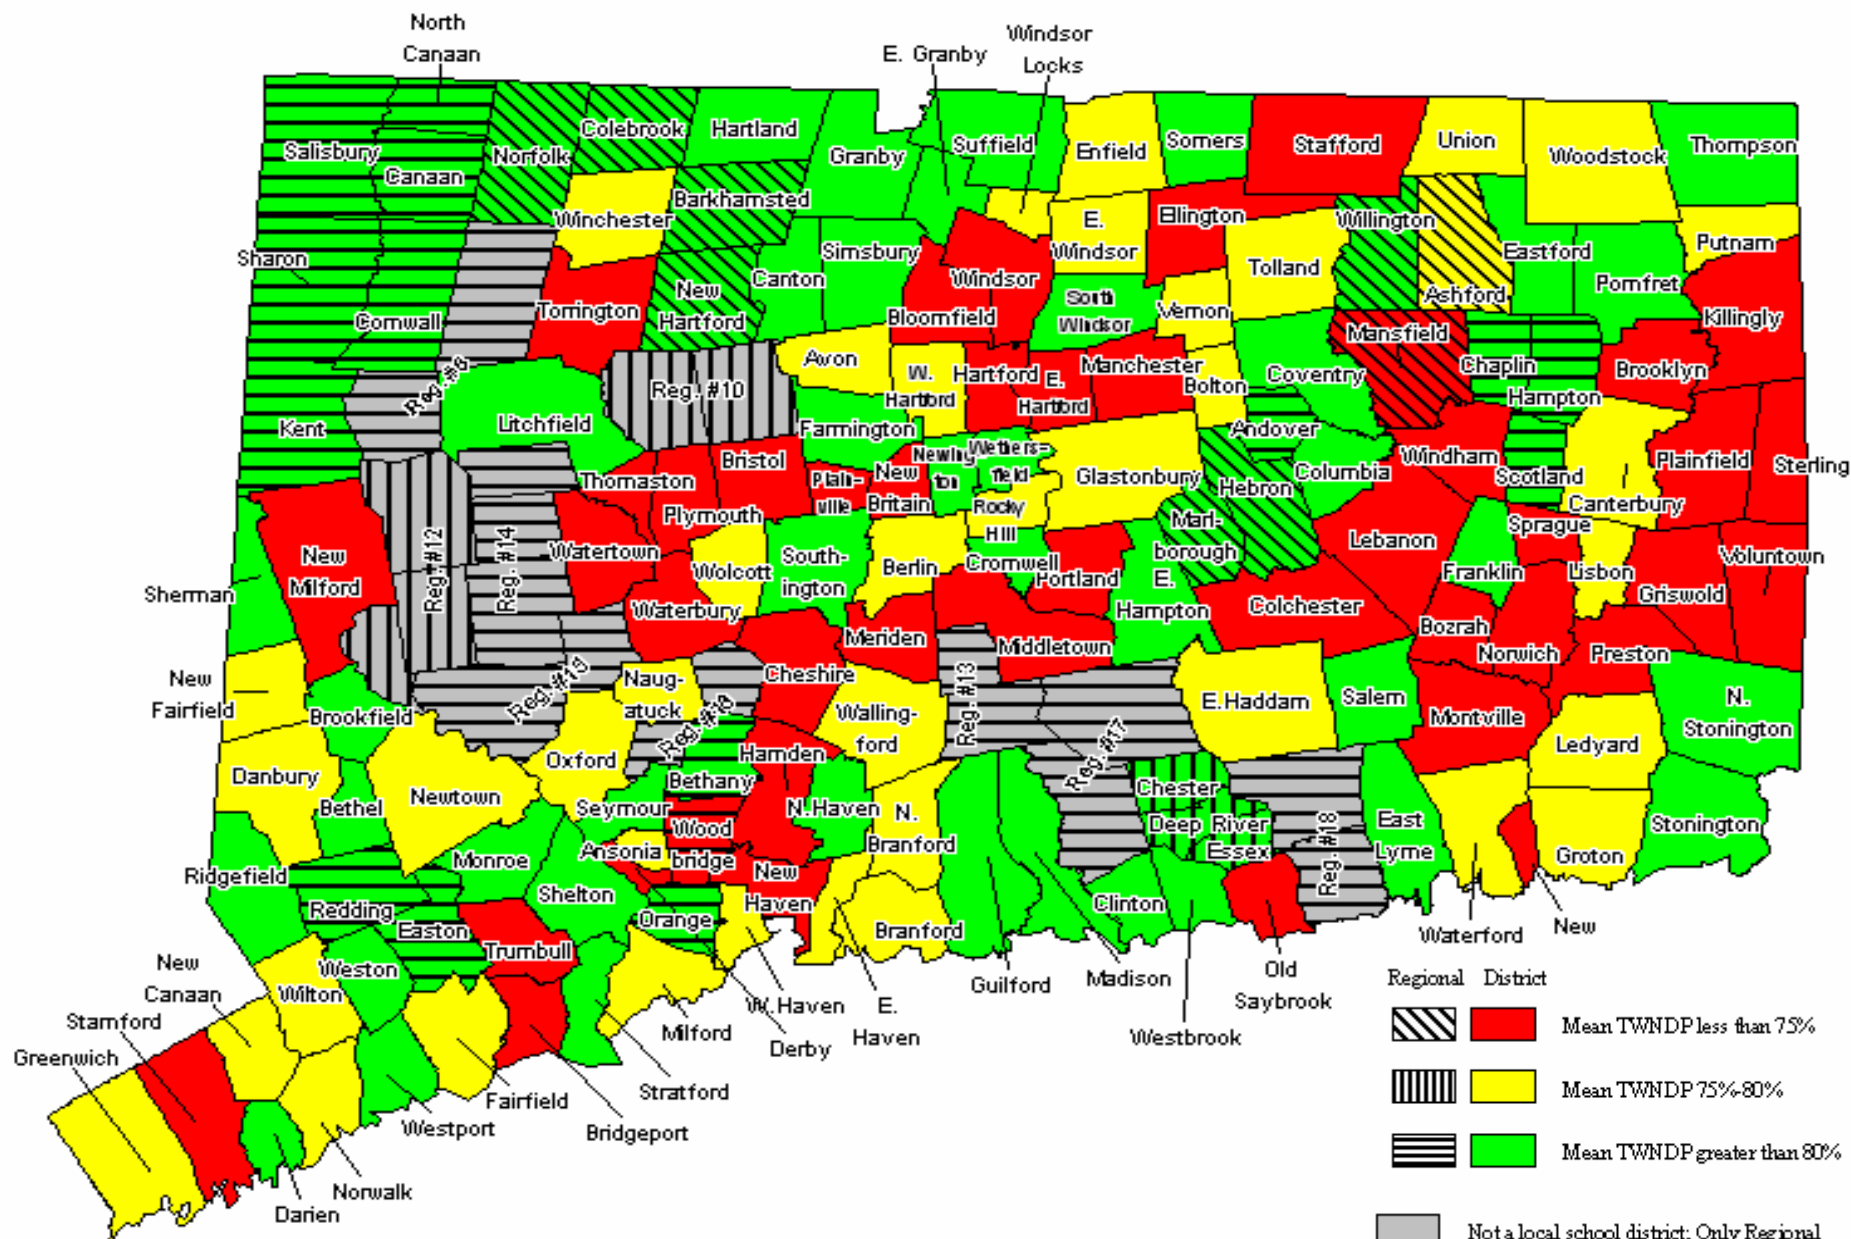

Color Coded District Data

[illegible]

Overrepresentation of Students with Disabilities by Race/Ethnicity

Mean Time with Non-Disabled Peers for All In-District Students with Disabilities

Color Coded District Data

Region #19:
 = Mean TWNDP for In-District Students Less than 75%

Willington:

 = Mean TWNDP for In-District Students Greater than 80%

Ashford:

 = Mean TWNDP for In-District Students 75%-80%

Mansfield:

 = Mean TWNDP for In-District Students Less than 75%

- 10 – 12 districts will receive a site visit per year
(one exemplary, one random)
- Districts will receive a site visit for one KPI
- Districts receiving site visit for overrepresentation have been notified
(visit November-December :
Manchester, Norwalk, Windham, and Windsor)
- Potential districts receiving site visit for LRE will be notified next week
(visit February-April)

Site Visits (19)

LRE Site Visit

- Districts will receive letter next week, asking them to analyze LRE data;
- Response will be due October 31, 2004;
- Districts will be chosen for LRE site visit in first week of November;
- Five districts will be chosen for site visit (*February – April*) based on data; and
- One exemplary and one random district will receive a site visit.

Site Visit Team

- **Lead consultant – SDE**
- **Support team which includes:**
 - SDE consultants**
 - SERC consultants**
 - LEA Directors**
 - Parents**

Pre-visit Planning Meeting (20)

- Lead Consultant
- District Special Education/Pupil Personnel Director
- District central office administrator such as Superintendent, Asst. Super., Curriculum Coordinator
- Other district representatives as identified

Purpose of Pre-visit Meeting

- **Review** the KPIs and district data;
- **Identify** areas of focus for site visit;
- **Identify** additional district data or policies and procedures that need to be reviewed;
- **Identify** any existing district/building improvement plans;
- **Review** student records that need to be available (up to 12);

Purpose or Pre-visit Meeting

- **Identify** staff/students to be observed or interviewed;
- **Review** how information will be gathered from families;
- **Determine** how families, staff and school board will be notified of site visit; and
- **Determine** how results will be shared with families, staff and school board.

Areas of Focus – Overrepresentation (23)

- District History
- Early Intervention
- Sp Ed Evaluation Practices
- Student Performance, Grad Rate and Drop Out Rate
- Services for ELL Students

Areas of Focus: Overrepresentation

- Family Involvement
- Suspension/Expulsion
- Preschool Services
- School Climate/Multi-cultural Competence
- Existing Improvement Plans

Areas of Focus: LRE (25)

- District History
- Students in OOD Placements
- Home School Placement
- Extracurricular Involvement and Social Opportunities
- Access to Gen Ed Curriculum and Regular Class Placement

Areas of Focus: LRE

- Integrated Student Support Services
- PPT Decision Making
- Preschool Services
- Achievement
- Collaboration for Service Delivery
- Existing Improvement Plans

Choose 3-5 Focus Areas for Site Visit

- Each focus area has a set of protocols
- Protocols may include:
 - A.Data gathering forms
 - B.Student record review form
 - C.Staff/Administrator Interview
 - D.Parent data
 - E.Student Observation

All districts will receive a set of protocols on CD-ROM.

Family Participation (27)

- Parents are members of monitoring teams.
- Existing data on family satisfaction from district, if available.
- Overrepresentation: Phone interviews will be conducted with family members.
- LRE: Public forum will be facilitated by impartial facilitator.

Follow-up to Site Visit (29)

- Exit Interview with the district;
- Monitoring Report will be issued 6 weeks after site visit, and
- Districts will participate in an Improvement Planning Session.

Improvement Planning (30)

- Session will include district reps, lead consultant, other SDE consultants, and SERC consultants;
- Improvement plan will be embedded into existing district improvement plans;
- Plans will identify 2-3 measurable goals;
- Plans will identify training and technical assistance needs.
